

The Southeast Alaska Mitigation Fund

Local Mitigation & Watershed Planning Discussion

Wednesday, February 4th

9:00-11:00 am

The Juneau Arts & Culture Center

➤ **The SAMF: Where we are and where we're going.**

Wetland Credit Method: Overview and discussion of SAWC's functional wetland credit method under review by the USACE

Stream Credit Method: Overview and discussion of SAWC's proposed use of the USACE Virginia District's Unified Stream Methodology for determining stream credit compensation at mitigation sites in SE Alaska.

➤ **Mitigation Planning:**

Adding mitigation sites in your community to the SAMF database:

How to develop a mitigation project summary to get your mitigation site added to SAMF's list of mitigation sites.

Elevating the status of your mitigation site: How to utilize the 2008 Final Rule's call for a watershed approach to identify and prioritize mitigation sites.

➤ **Panel discussion on the state of restoration in Southeast Alaska (time permitting)**
